The Bay Front.

Naval Stores Receipts.

Naval stores receipts yesterday at Central wharf were as follows: By steamer Vernon, 316 barrels; by schooner Magnolia, 181 barrels; by steamer Viola, 104 barrels; by schooner Lily Bell, 166 barrels.

A Mobile Tug.

The tug Iola came up to the city docks this morning, taking a berth at Palafox wharf. The Iola towed over from Mobile two barges loaded with gravel, the material to be used for the big government works at Port Pickens. The barges will be taken back by the Iola, the steamer waiting here until they are unloaded.

Manteo Arrives.

The steamer Manteo reached her dock at 5 p. m. yesterday, leaving three hours later on regular coast port schedule.

Quick Discharge of Ballast.

Quick discharge of ballast was given the Spanish bark Carvajal, now moored at Palafox wharf. The Carvajal docked two days ago, and yesterday the last of the ballast of broken tile was taken from the vessel. At 1 p. m. the Carvajal began taking cargo.

Simpson En Route.

With a barge of lumber in tow the tug P. E. Simpson left Millville yesterday and is expected to reach port early this morning.

Cargo of Phosphate.

A part cargo of phosphate rock is on board the British steamship St. Leonards, which arrived yesterday consigned to John A. Merritt & Co. The ship will fill out here with lumber. Port Inglis, Fla., where the phosphate supply was taken aboard, was the last port of call of the steamer.

Pilot at Dock.

The steam pilot boat Pilot was moored at the east side of Palafox wharf yesterday, and the general "watchers of the bar" held open house to friends who happened to be in that neighborhood during the afternoon.

A Cargo of Lumber.

A cargo of lumber is being taken by the steamship Lovaine, which is moored at the east side of Perdido wharf.

Caught a Swordfish.

The barkentine Stephen G. Hall, which arrived at Providence, R. I., on June 12, caught a swordfish during the voyage north, while 100 miles east of Hatteras, the line attached to the patent log was heaved over the tail. It was allowed to drag for some time. When finally hauled in the line was found to have a 200-pound swordfish at the end. The head and gills of the fish had become entangled in the line causing it to drown. Fried swordfish was enjoyed in both the cabin and fore-castle of the schooner for several days. It was the first catch of the season.

HEALS
SORES AND ULCERS

S.S.S. heals Sores and Ulcers in the very simplest way. It just goes right down into the blood and removes the cause, and the place is bound to heal because the impurities and morbid matters which have been the means of keeping the ulcer open are no longer absorbed from the blood. External applications of salves, lotions, plasters, etc., can never produce a cure because they do not reach the source of the trouble. At best they can only allay pain or reduce inflammation; such treatment is working on symptoms and not reaching the cause. Every nutritive corpuscle in the blood is weakened or infected, they cannot nourish the fibrous tissue around the place, but instead they constantly discharge into the flesh around the sore a quantity of impure, germ-laden matter which gradually eats into the surrounding healthy tissue and causes the ulcer to enlarge. Since impure blood is responsible for Sores and Ulcers, a medicine that can purify the blood is the only hope of a cure. S.S.S. has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity from the blood. While curing the sore or ulcer S.S.S. brings about a healthy condition of the flesh by supplying it with rich, healthy blood, and thus makes the cure permanent and lasting. Book on Sores and Ulcers and any medical advice free to all who write.
